Dear Mr. Allen:

The State Engineer's office received the enclosed letter regarding distribution of water in Spring Creek. A copy of the approval memorandum on Application 25-4548 is also enclosed. The third and fourth paragraphs are marked to show that if water supplies do not exist to meet all prior rights, diversion is not permitted under your approval.

If you have comments or questions with regard to your water right or water supply, please contact me at 752-8755. If there is not a sufficient supply of water in the Spring creek you are to cease using the water.

Sincerely,

 P.E.
Robert M. Fotheringham, P.E.
